Diagnostics and Lab Services

Bronson provides a complete range of lab, outpatient testing and diagnostics services for your patients. These services, such as MRI, (including 3T MRI), CT, PET/CT, nuclear medicine, mammograms, X-ray, fluoroscopy, lab draws, ultrasound, etc., are designed for the comfort and convenience of your patients, while providing you with timely, accurate and reliable test results. With eleven locations throughout southwest Michigan, some locations offer evening and weekend hours.
