

“Our emergency team’s expertise is incredible.
I can see why patients prefer Bronson.”

Mary Staten-McCormick, MD

I feel lucky to be part of such an incredible team.

As the area's only Level I Trauma Center for children and adults, our emergency team is uniquely prepared to provide lifesaving treatment for people of all ages.

At Bronson, patients like having private rooms and being cared for by board certified emergency medicine physicians and nurses who have decades of experience treating patients quickly, effectively and safely.

That's why our patient satisfaction is so high and why people in Kalamazoo prefer Bronson 2 to 1 for emergency care.

I love being part of the team that makes that happen.
