

“In any emergency, you can be confident choosing Bronson LakeView Hospital.”

Matthew Dommer, MD

In Paw Paw, you have the best of both worlds. Quick, convenient, emergency care that is close to home, and access to the highest level of trauma care. That's very reassuring, especially in an emergency.

At Bronson LakeView Hospital, we have decades of experience in emergency care and are prepared to diagnose and treat your injury or illness quickly, effectively and safely.

As a member of the Bronson system, Bronson LakeView Hospital is linked to the Level I Trauma Center at Bronson Methodist Hospital in Kalamazoo. In fact, our full service Emergency Department is staffed 24/7 by the same team of emergency medicine physicians.

That's why more people are choosing Bronson LakeView Hospital.
