

COVID-19 Information in MyChart

Finding your COVID-19 testing and vaccination information just got easier.

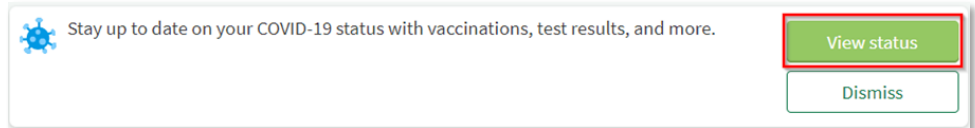

A new COVID-19 Status activity is now available in MyChart. It allows you to quickly see and share your COVID-19 vaccination status digitally. The activity also has any past COVID-19 test results so you can easily find and provide that information.

If using the mobile app make sure you have the latest version (9.8 or newer). Save time in the mobile app by turning on the COVID-19 Status Preview. [Learn more here.](#)

Use the new COVID-19 activity today!

1. Log into MyChart. No MyChart? No problem. Sign up [here](#).
2. On the home screen you may see an alert to launch to the activity.
 - a. The activity is always available under the Menu in the My Record section.

3. Within the activity you can:
 - a. Generate QR codes to supply to entities requiring vaccine documentation
 - b. Download and export your vaccine credentials ([learn more here](#))
 - c. View your vaccine documentation
 - d. Review and add external vaccine documentation ([learn more here](#))
 - e. View your past test results
