

# Need Care Now? We Can Help.

## 24/7 Bronson Care Advisors

When you aren't feeling well, the first step is to call (269) 341-7788 to talk with a care advisor. After sharing your symptoms, together, you can decide what kind of care is best for your needs. Your care advisor can:

- Answer questions to help you feel better.
- Connect directly with your care team to make sure you get the care you need.
- Schedule an in-person or video visit with your provider, another provider in your practice, or an evening appointment at an immediate care clinic.
- Direct you to an appropriate walk-in location.
