

COUNSELING RESOURCES

Dear Parent ~ we have tried to provide you with a full listing of possible resources. Sexual Assault Services does not charge for services because we receive grant funding to provide services to primary and secondary victims of sexual assault. Additionally, many of these agencies have a sliding fee scale that may be available to help you with the payment of services. Please note that we can help you file for assistance through the State of Michigan's Crime Victim Services Commission or help you navigate other resources that may be available to you.
