

340B IN ACTION

Bronson Healthcare Group

Southwest Michigan

The 340B prescription drug program is a vital lifeline for safety-net providers, supporting critical health services in our communities. The program is narrowly tailored to reach only hospitals that provide a high level of services to low-income individuals or that serve isolated rural communities. Savings from the 340B program help hospitals meet the healthcare needs of underserved patients across the country. Congress should preserve and protect the 340B program as an essential part of the safety-net that does not rely on taxpayer dollars.

340B by the Numbers:

The 340B Impact in Our Community:

Bronson Healthcare Group is a healthcare system with 677 licensed beds including 3 Disproportionate Share Hospitals and 1 Critical Access Hospital. We provide care in virtually every specialty with advanced capabilities in critical care as the areas only Level 1 Trauma Center.

Our 340B savings enable us to provide critical services to our community; including:

Funding patient assistance programs that offer no charge medications to our low income and uninsured patient population.

Providing a diabetes kit to every newly diagnosed diabetes patient.

Providing bedside prescription delivery to discharged patients, which has helped to reduce readmission rates.

Providing Neonatal and Pediatric care within the only Children's Hospital in Southwest Michigan.

Supporting our trauma and burn unit, oncology, and infusion centers.
