

Select Ultrasound Tests Can Now Be Scheduled in Bronson MyChart

Your patients can now schedule select ultrasound (US) exams performed at Bronson imaging locations through their Bronson MyChart account.

Here's how it works: You will place your ultrasound imaging order in Epic which will generate a scheduling ticket for your patient's Bronson MyChart account. This applies to these ultrasound imaging tests:

- US Abdomen Complete (IMG524)
- US Abdomen Quadrant (IMG525)
- US Abdominal Aorta (IMG1081)
- US Elastography Only (IMG4563)
- US Gallbladder (IMG1079)
- US Hepatic (IMG1694)

- US Kidney Right (IMG2389)
- US Liver (IMG1077)
- US Liver With Doppler Complete (IMG2386)
- US Liver With Doppler Limited (IMG2387)
- US Liver with Elastography (IMG4454)

Additional Information:

1. The ultrasound order generates a ticket. *Patients will not be able to schedule an ultrasound exam unless an order exists in Epic.* Using this process automatically links the order to their scheduled appointment.
2. Your patients will only be able to schedule their ultrasound exams at Bronson imaging locations. **This Bronson MyChart scheduling option is not available for medical practices that offer ultrasound services.**
3. Once an ultrasound exam is scheduled either by the patient or Bronson Central Scheduling, the ticket will be "consumed" and will no longer be available for the patient to select in MyChart. However:
 - Patients will be able to cancel or reschedule their appointments in MyChart.
 - If the appointment is canceled, the scheduling option will again become available.
