## String Game in The Woods (outdoor activity)

### You Need:

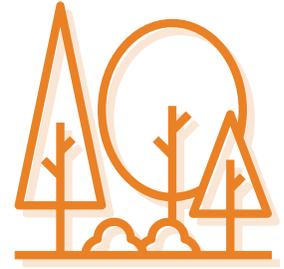

String, yarn or twine

### Set Up:

**Parents:** Tie one end of a ball of string to something like a table leg. Slowly walk, unraveling the string around the bushes, between the trees, over outdoor chairs and tables, etc. Zigzag your way to the place your child will start their journey.

### How to Play:

1. Give your child the end of the string and have them follow it around.
2. Tell your child to roll up the string as they go along and recycle it for another use.
3. Repeat with a different string layout.
